SHEET 6 OF 6 · CUSTOMER FORM

Room & Device Intake

Rooms, devices, and how each one communicates · Do not write passwords

Fill this out before we program your Helix system. Use one page per room. For every device, tell us how many you have, what it is, how it communicates (Wi-Fi, Zigbee, Z-Wave, wired, Bluetooth, or you don't know), the brand and model, and whether a light is a dimmer. Remote setup is based on up to six rooms. If your house has more, use the extra blank page and we will go over it.

About your home

YOUR NAME

DATE

INTERNET PROVIDER

ROUTER BRAND AND MODEL

WI-FI NAME (SSID ONLY)

Do not write the Wi-Fi password, any PIN, or a camera link on this sheet. We will ask for those securely.

Rooms and existing hubs

HOW MANY ROOMS ARE IN THE HOUSE?

Remote setup is based on up to six rooms. Write the real count.

EXISTING HUBS OR APPS (TICK ALL THAT APPLY)

- ☐ Hue bridge
- ☐ SmartThings
- ☐ HomeKit / Apple Home
- ☐ Amazon Alexa
- ☐ Google Home
- ☐ Smart Life / Tuya only
- ☐ Shelly
- ☐ Other

IF OTHER, WRITE THE NAME

How to tell how it connects

1. Look on the device, the box, or the wall plate for a Wi-Fi, Zigbee, or Z-Wave logo.
2. If you set it up in a phone app over your home Wi-Fi (Smart Life, Kasa, Shelly, and similar) and there is no extra hub, it is usually Wi-Fi.
3. If it joined a hub or bridge first (Hue, SmartThings, an Aqara hub, a Zigbee or Z-Wave stick), it is usually Zigbee or Z-Wave. Check that hub's app.
4. A common light switch with no radio, or a thermostat on furnace cable only, is Wired.
5. If you are not sure, tick Don't know. We can sort it out.

Where to find brand and model. On the label on the back or side, or behind the switch plate (turn the breaker off first). Or in the phone app under the device's settings / device info, or on the original box.

Type column — use: light/switch · dimmer · outlet/plug · thermostat/AC · fan · shade · lock · garage · camera · doorbell · sensor (door/window/motion/leak) · siren · speaker/TV · irrigation · other.

Worked example · Living Room, 2 ceiling lights, Zigbee, Aqara, dimmer yes. Generic demo data — not a real house.
